Re: PRJ23-007 The Woodlands
Chanate Road, Santa Rosa, CA 95404

Dear Kristinae Toomians,

Thank you for giving us the opportunity to review the subject plans. The proposed PRJ23-007 The Woodlands is within the same vicinity of PG&E's existing facilities that impact this property.

PG&E operates gas and electric distribution facilities, both overhead and underground within the project parameters and currently serving the existing buildings on the subject properties. Per the conceptual plans, some of the referenced facilities are in conflict with the proposed development. Buildings and/or structures of any kind are not permitted under overhead electric distribution lines or above underground gas and electric lines.

You must contact PG&E's Service Planning department at www.pge.com/cco for any modification or relocation requests, or for any additional services you may require prior to any proposed demolition or new construction, including new service requests. You may also contact the Building and Renovation Center (BRSC) for facility map requests by calling 1-877-743-7782.

As a reminder, before any digging or excavation occurs, please contact Underground Service Alert (USA) by dialing 811 a minimum of 2 working days prior to commencing any work. This free and independent service will ensure that all existing underground utilities are identified and marked on-site.

If you have any questions regarding our response, please contact me at alexa.gardea@pge.com.

Sincerely,

Alexa Gardea
